

Website Accessibility Audit

<https://seoscoreapi.com/>

Prepared for	Acme Corp. / Matter 2026-114 (fictitious example)
Audited	September 29, 2026 at 22:37 UTC
Standard	WCAG 2.1 AA
Method	Automated axe-core rule checks, run in a real browser
HTTP status	200
Fingerprint	SHA-256 703a1000c8ad7dc690d653e71beaa02edc4ccb0d828e3ed26b0c9a25aa815eb5

Summary

Score	86.8/100 (grade B)
Rules checked	49
Failed	1 rule(s), 5 element(s)
Passed	30
Needs manual review	0

Issues found

#	WCAG criterion	Impact	Elements	Issue
1	1.4.3 Contrast (Minimum) (AA)	serious	5	Elements must meet minimum color contrast ratio thresholds

Details

1. Elements must meet minimum color contrast ratio thresholds

WCAG	1.4.3 Contrast (Minimum) (AA)
Impact	serious
Elements affected	5
Rule	color-contrast (https://dequeuniversity.com/rules/axe/4.10/color-contrast?application=axeAPI)

Ensure the contrast between foreground and background colors meets WCAG 2 AA minimum contrast ratio thresholds

Fix: Increase the contrast between the text and its background to at least 4.5:1 (3:1 for large text). Darken the text or lighten the background.

Element: .hero > p:nth-child(5) > span

```
<span style="opacity:0.85;">new, in private beta</span>
```

Text contrast is 4.29:1 (#757575 on #0a0a0a); it needs at least 4.5:1. Darken the text or lighten the background until it passes.

Element: div:nth-child(4) > a[rel="noopener"][target="_blank"]

```
<a href="https://www.google.com/preferences/source?q=seoscoreapi.com" rel="noopener" target="_blank" style="display:inline-flex; align-items:center; gap:0.5rem; padding:0.5rem 1rem;
```

Text contrast is 3.56:1 (#2563eb on #141414); it needs at least 4.5:1. Darken the text or lighten the background until it passes.

Element: p:nth-child(7) > a[rel="noopener"][target="_blank"]

```
<a href="https://www.g2.com/sellers/seo-score-api" rel="noopener" target="_blank" style="color:var(--accent);">Review us on G2</a>
```

Text contrast is 3.83:1 (#2563eb on #0a0a0a); it needs at least 4.5:1. Darken the text or lighten the background until it passes.

Scope and limits

This report lists what automated accessibility testing (the axe-core rule engine, run in a real browser) found on the page(s) named above at the time shown. Automated tools detect a subset of WCAG 2.1 AA issues, commonly estimated at a third to a half; many criteria (for example meaningful alt text, keyboard-only use of complex widgets, captions quality) need manual review by a person. A clean automated result is not proof of conformance, and this report is not a legal opinion. Results reflect the page as served to the testing browser; content behind logins, later changes, or other pages are not covered.

Raw result preserved in the audit JSON; recomputing SHA-256 over its 'result' object (sorted keys, compact) reproduces 703a1000c8ad7dc690d653e71beaa02edc4ccb0d828e3ed26b0c9a25aa815eb5.
